

## **Obama Dead-Zone Eliminator, Pulse suppressor, Launch box**

OTDR measuring instruments will be even smaller every year. So it's important that the measuring equipment will be compact, too.

In comparison with all other fibers of our competition, are our fibers the first which will be encapsulated with a metaltube.

This has got the advantage that our fibers are save of contusive or kink.

And it's lightweight, that you can fix it with a loop of Velcro Hook and Loop tape or a attached magnet on a metaldoor or metal rack.

### **Features:**

- Colour code 9/125=Yellow, 50/125=Green, 62,5/125=blue
- small-sized, handily and smart , portable for field use,
